No abnormalities, problems, or deviations from accepted procedures were identified except those noted as follows:

<i>Issue</i>	<i>Reason</i>
High reported value on total uranium sample #19881	The sample 19881 was duplicated to meet QC requirements. The amount of sample left for analysis was 1 gram, therefore we were unable to meet the detection limit. Sample 19877 is a duplicate of 19881 and the detection limit was good.
